

Work samples

SkyMood Weather App

- Built a modern PWA weather platform for Iranian cities using React and Vite.
- Integrated Open-Meteo APIs for live forecasts, air quality, UV index, and geolocation-based weather.
- Added city comparison, weather charts, favorite cities, recent search history, and API caching with localStorage.
- Implemented Persian/English language support, dark/light mode, responsive layouts, and animated weather backgrounds.
- Prepared Android APK support using Capacitor.

Portfolio Website

- Built a responsive personal portfolio to showcase projects, CV, skills, live demos, and contact links.
- Created animated page sections using Framer Motion.
- Designed reusable project cards with technology tags, GitHub links, and live demo links.
- Added SEO metadata, responsive navigation, social links, and Docker-ready Vite build setup.

Blog-React

- Developed a full-stack blog application with React, Node.js, Express, and MongoDB.
- Implemented user authentication, protected routes, profile settings, and blog post CRUD features.
- Integrated REST APIs using Axios and managed frontend state with Context API and React Hooks.
- Added image upload support using Multer.
- Tested backend APIs with Postman.

Messenger-React

- Built a responsive messenger interface with React and Vite.
- Implemented JWT authentication, protected routes, login/register forms, and session handling.
- Integrated REST APIs for chat room listing and room creation.
- Added chat search, emoji picker support, toast notifications, and modular component structure.

Key Skills

REACT	JavaScript	React Router	React Hooks		
HTML	CSS	Git	REST APIs	Vite	Axios
TypeScript	Tailwind	Context API	Framer Motion		
Fetch API	JWT	Docker	Postman		
Node.js	SCSS	Express	Npm	PWA	Bootstrap
Mongoose	MongoDB	Capacitor	Recharts		
LLM Workflows	Local AI Agents	Model Integration	Deep Learning		
OpenClaw	CNNs	Hermes	AI Tooling	Python	AI Research
Prompt Engineering	Data Preprocessing	Model Evaluation			

I'm a Junior Frontend Developer focused on building clean, responsive, and user-friendly web applications with React. I enjoy turning practical ideas into polished interfaces, integrating REST APIs, managing frontend state, and improving real-world projects through reusable components and modern UI patterns.

Education

Bachelor of Software Engineering

Kermanshah Azad university 2018-2021

Master of Artificial intelligence

Tehran North Azad university 2022-2024
